The Story of Nordhus

In Norwegian, Nordhus means “North House.”

We chose this name because we are inspired by the quiet beauty of life in the North — where winter is long, the light is soft, and the homes are often cold.

But we believe a home doesn't have to feel cold, even if the wind howls outside. At Nordhus, we design pieces that bring warmth to the soul of your home — subtle textures, soft colors, thoughtful details.

Each product we create is rooted in the essence of Scandinavian living: simple, honest, and soulfully warm.

We started Nordhus with a single purpose: To offer timeless, comforting objects that make every space feel like home — especially when the world outside is frozen.

From the cold North, with warmth in our hearts.
Nordhus — Warms your soul.

A woman with wavy brown hair stands in a bright, modern kitchen. She is wearing a grey turtleneck sweater, white trousers, and a white apron with a festive Christmas design featuring a nutcracker, a green holly leaf, and a red Christmas tree. The kitchen has white cabinetry, a white sink, and a white countertop. A wooden cutting board with bread is on the counter. A dining table with a white and grey checkered tablecloth is in the foreground. The word "Aprons" is written in a serif font on the right side of the image.

A woman with long brown hair, wearing a white knit sweater and blue jeans, is sitting on a brown armchair. She is holding a dark blue square cushion with a large red bow on it. The room is decorated for Christmas, with a wall covered in framed Christmas cards and a Christmas tree visible on the right. A small table next to her holds a lit candle and a mug. Warming the Soul of a Home

At Nordhus, we try to bring warmth into homes through Scandinavian-inspired design. Because for me, every object begins with a feeling.

Even before I started creating Nordhus, I was always drawn to the pieces that touched my soul. It didn't matter whether they matched my home perfectly or not. If an object made me feel something, if it brought warmth, comfort, or a sense of peace, I wanted it around me. And sometimes, those objects gave me more than beauty — they gave me comfort, lifted my mood, and even gave me strength during difficult moments.

That feeling became the heart of Nordhus.

I began designing and creating products with one simple wish: that they would warm not only a space, but also the people living in it. A table prepared with love, a quiet morning coffee, a soft evening light... I believe these small moments are what truly make a house feel like home.

I hope that Nordhus products will touch your soul just as meaningful objects once touched mine, and that they will bring warmth to your heart, your home, and the moments you share with the people you love.

With love,

Ufuk Gültekin
